SUMMARY OF CONTROLLED SUBSTANCES THEFTS

This report was informational. James Barbe, from the DEA Milwaukee Office, spoke to the Board regarding information on several drug thefts from Wisconsin pharmacies.

## CONSIDERATION OF HUMANE SOCIETIES WHO EMPLOY VETERINARIANS

SUA's should only include euthanasia drugs. Other drugs should be ordered through the veterinarian's DEA number. The distinction is made between euthanasia drugs and veterinary medical practice drugs.

## DISCUSSION OF SUA'S ISSUED TO WILDLIFE REHABILITATORS

Wildlife rehabilitator permits are issued by the DNR. Rehabilitators are supposed to be associated with a veterinarian or local game warden, but the system lacks a certain amount of control and this is not always verified.

The following guidelines were suggested for SUA's for wildlife rehabilitators:

- 1) Sponsorship in writing by a veterinarian supporting the need for euthanasia drugs must be obtained.
- 2) The rehabilitator must care for a sufficient number of animals per year to make having to go to a veterinarian for euthanasia services impractical.
- 3) Rehabilitators must attend an approved euthanasia training program.
- 4) Rehabilitators must demonstrate the ability to comply with all drug storage and records requirements.
- 5) Documentation must be provided showing that the rehabilitator/facility is a stable, permanent wildlife care center.
